Subject: Burwash NP, Land at Glebe House.

Good afternoon

An application for pre-app advice with RDC relating to the development of the above resulted in it being suggested that you be contacted regarding the inclusion of the site as a housing allocation in the NP. I appreciate that this has been considered by you previously and by RDC's SHLAA, but for reasons described in the attached report it is considered that the objections can be overcome. I have also attached an indicative layout, concept drawing and indicative sections.

I look forward to your response.

Regards

Graham Fifield
